

Postdoctoral Opportunities at NIST

Marcia Huber^{1, S, C} and Tara Lovestead¹

¹*Applied Chemicals and Materials Division, National Institute of Standards and Technology, Boulder, CO, U.S.A.
marcia.huber@nist.gov*

Do you want to be part of cutting-edge research at the National Institute of Standards and Technology (NIST)? NIST partners with the National Academies/National Research Council (NRC) on a competitive postdoctoral research program. There are opportunities in chemistry, physics, materials science, math, computer science, and engineering. You must be a U.S. citizen and have held your Ph.D. in a science, technology engineering, or math discipline for less than five years at the time you submit your application. There are two application windows per year with deadlines of Feb. 1 and Aug. 1. Stop by our table to chat and learn more!
